- Platform Based Development
- Database Design
- Expert Systems

SKILLS

- Advanced
 - Java
 - Github
 - Python
 - C++
 - Maven
- Familiar
 - SQL
 - AngularJS
 - ReactJS

PROJECTS

Ecommerce Simulator

- Used what I learned in object-oriented software development to build an ecommerce simulator using java.
- Applied several design patterns in creating objects.

- Used Junit to create several automated tests.
- Used maven to create and build this project.
